

3. Lost Type Relationships

```
class Ordered {  
    func precedes(other: Ordered) -> Bool { fatalError("implement me!") }  
}
```

```
class Label : Ordered { var text: String = "" ... }
```

```
class Number : Ordered {  
    var value: Double = 0  
    override func precedes(other: Ordered) -> Bool {  
        return value < (other as! Number).value  
    }  
}
```
